Rules & Interface

The Faust online slot interface is relatively simple and easy to understand. The information boxes and buttons are at the bottom of the screen. From the information boxes, you can see your balance level and the rewards you have earned.

The buttons are 4 in total. If we briefly explain these:

Autoplay: Once you click this

button, the reels start to spin until you click again automatically.

Paytable: You can

see the payout values of the online Faust slot machine's symbols and rules from this table.

Gamble: This button launches a bonus round, which we will explain below.

Start:

Press this button to rotate the reels once.

The buttons that you can use to set the

betting levels and line numbers are also here. Faust is a game with a total of 10 pay lines and five reels. However, it is possible to reduce the number of pay lines. The betting levels range from a minimum of 0.10 per spin to a maximum of 500 coins. The demo version of the game offers 500 complimentary coins. So when playing for free, we recommend that you do not exceed the minimum bet amount. More benefits offer the free Golden Goddess slot & bonus games with bonus rounds included in the gameplay. Jackpot is also included with wild and scatter symbols.

You can start the game by pressing the

“Start” button. To qualify for a prize, you have to place at least two identical symbols on a pay line. Faust has a total of 10 symbols. The symbols shown with a picture are high valued and pay between 250 – 250,000 coins. The symbols shown by the game card signs are low valued and pay up to 7.500 coins. The more symbols you put side by side, the higher the prize amount. As we will explain below, there is also a special symbol.

Prize amounts vary according to betting levels. The highest prize is 250,000 coins, but you need to play with the highest bet level to win this amount. In other words, if you are playing with a minimum bet, the number of rewards will be much lower. For this reason, if you play with real money, we always recommend you to place the maximum bet.

Faust Slot Machine Bonus Features

Slot machine Faust has only one special symbol. Scatter / Wild: This symbol, pictured with Dr. Faust’s picture, counts as wild and scatter. So it has the following features:

It can replace all other symbols in the game. You can use it to complete a winning combination.

It pays between 1,000 and 100,000 coins. And it does not have to land on a pay line for this.

If you manage to

get three signs at the same time, the free spins bonus round starts. In this round, ten free spins are awarded. Before the round starts, a randomly selected symbol gains the “expand” feature. So it can fill the reel the entire reel it appeared on. This increases your chances of winning at a remarkable rate.

The Faust slot machine, as

mentioned above, also has a gambling round. After winning a prize, you are asked if you want to start this feature. This is a mini-game based entirely on luck. You are asked to guess the colour of a face-down play card. We do not advise you to play this feature, as you are at risk of losing all your winnings.

Casual Play or Real Money

Gambling

Free-slots-no-download offers you the chance to play this game for free or real money. Faust slot machine can be played for practice or casual gambling and requires no download. If you want to try your chances with real money, we also offer you a list of the best online casinos out there.

Faust Volatility: How does it work?

If

you are playing the demo version just for fun, you can skip reading this part. If you are playing for real money, and your bank balance is on the line, make yourself very clear. If a slot machine lets you win a good number of times, but the value of each prize is comparatively small, then this slot has less volatility.

However, a highly

volatile slot will give out prizes that are relatively less in number but immense in value. Players who enjoy taking risks and are supported by a healthy bankroll can go for highly volatile slots. They also need to be very patient and not expect immediate

results. Players who either abhor risks or lack a sturdy bankroll should stick to low volatile games. The Faust slot, however, is a highly volatile game.

A new screen containing a playing card opens up. But you cannot see this card. Now try to guess its colour – red or black? If your guess is right, you double your prize. But if it's wrong, then sorry, you lose your winnings. So it is better to play this round only if your winnings are small. In such a case, even if you lose, you won't have much to regret.

Granjeros de Dinamarca tendrán que pagar por las emisiones de gases de efecto invernadero de su ganado

Los granjeros de Dinamarca tendrán que pagar por las emisiones de gases de efecto invernadero que expulsan los animales de su ganado, después de que el gobierno acordara establecer el primer impuesto sobre las emisiones agrícolas del mundo.

El acuerdo -alcanzado el lunes por la noche después de meses de difíciles negociaciones entre granjeros, industria, políticos y grupos ambientalistas- introducirá un impuesto efectivo de 120 coronas danesas (14 libras esterlinas) por tonelada de contaminación de gases de efecto invernadero procedentes del ganado en 2030, que aumentará a 300 coronas danesas por tonelada en 2035.

Los ingresos se agruparán en un fondo para apoyar la transición verde de la industria ganadera durante al menos dos años después de que el impuesto entre en vigor.

"Estamos escribiendo un nuevo capítulo en la historia agrícola danesa", dijo el ministro de Agricultura, Jacob Jensen.

La agricultura es responsable de alrededor de una tercera parte de la contaminación por calentamiento planetario -aproximadamente la mitad de la cual proviene de los animales- pero los legisladores han sido reacios hasta ahora a controlar sus emisiones. Granjeros enojados han bloqueado el tráfico en varias capitales europeas este año en protestas violentas que obligaron a los líderes de la UE a suavizar las reglas diseñadas para limpiar el sector.

La semana pasada, Nueva Zelanda abandonó sus planes mundialmente aplaudidos para gravar las emisiones agrícolas desde 2025 después de la oposición de los granjeros.

Nicolai Wammen, ministro de Finanzas de Dinamarca, dijo que el acuerdo es una inversión en el futuro de la agricultura. "Sabemos que un modelo fiscal de CO2 alineado en todos los sectores da como resultado los costos sociales totales más bajos. Lo que hemos hecho ahora, desde los sectores industriales hasta la agricultura, muestra que una transición verde ambiciosa es posible".

Dinamarca es uno de los mayores productores de cerdo de Europa y un productor significativo de carne y leche.

Los animales rumiantes como el ganado y las ovejas liberan enormes cantidades de metano cuando digieren los alimentos. El gas, que también se libera al extraer y procesar combustibles fósiles, calienta el planeta aproximadamente 80 veces más que el dióxido de carbono durante un período de 20 años, pero no dura tanto en la atmósfera.

El impuesto propuesto danés sobre las emisiones agrícolas está por debajo de los niveles que los expertos dicen que reflejarían el costo social de emitir una tonelada de gases de efecto invernadero, pero aún puede incentivar cambios hacia prácticas agrícolas más limpias. Bajo el esquema de comercio de emisiones de la UE, que no cubre la agricultura, el precio de emitir una tonelada de dióxido de carbono ha oscilado entre 50 y 100 euros en los últimos tres años.

El profesor Mark Howden, director del Instituto para el Clima, la Energía y las Soluciones para Desastres de la Universidad Nacional Australiana, dijo que "el mundo ya no puede permitirse ignorar" las emisiones del sector agroalimentario. "Las soluciones necesarias para realizar un corte significativo en el pie de imprenta climático de la agricultura ya existen -pero los incentivos financieros como el impuesto danés podrían ayudarlos a ser implementados a gran escala", dijo.

El acuerdo, que aún debe ser votado por los legisladores, se espera que reduzca las emisiones de CO2 en 1.8 millones de toneladas en 2030. Incluye la creación de un fondo de 40 mil millones de coronas danesas para proteger la naturaleza, restaurar ecosistemas degradados y crear bosques y humedales.

"Este es un compromiso histórico que establece una dirección completamente nueva para el uso de la tierra", dijo Maria Reumert Gjerding, presidenta de la Sociedad Danesa de Conservación de la Naturaleza. "A pesar de las grandes diferencias, hemos logrado llegar a un acuerdo sobre un impuesto al carbono que allana el camino para una industria alimentaria transformada -también más allá de 2030".
