About Aviator

Take off with Aviator

Taking flight in 2024, Aviator hit the scene from Spribe and took provably fair casino to new heights featuring the Crash game mechanic. Grab your trustiest flight goggles, set your bet limit, and strap in as the further the Aviator goes, the higher the win multiplier will grow. Make sure you cash out before the plane flies away or you will lose your current bet.

Aviator uses provably fair technology to ensure that the validity of each round is fair and can be independently checked by the player to confirm the fairness of the results. Provably fair uses calculations composed of the Serverseed, Clientseed, and Nonce to determine the results of each round and these can be checked at the end of each round by a player.

How to Play Aviator

Choose your bet level and press confirm in the designated betting window Once the countdown expires, the Aviator will take flight and start collecting a growing win multiplier Cash out at any point to claim your winnings and wait longer for the chance to add a larger multiplier If the plane flies away, the round ends and any bets not cashed out will be lost You can set a second bet alongside your initial bet to double your chances of cashing out before the plane flies away

How to Win Aviator

The way to win in Aviator is to successfully press cash out before the Aviator plane flies away. Once the betting phase has ended, the round starts at the set bet value with the plane increasing by 0.1x until it reaches the final amount. You can either cash out early for a small return or stick for as long as possible before pressing cash out to maximise your total return.

Aviator also features a Double Bet feature that allows for a second bet to be active during play. This second bet is set and activated independently of the first one and can be cashed out without cashing the initial set bet.

Aviator Bonus Features

The Aviator Double Bet feature

Double Bets- At any point during the betting stage you can add an additional second bet alongside your initial one. This will act as 2 separate bets that can be cashed out at any time and set to different values between £1-£100.

Leaderboards- At any point during play, you can check the leaderboards to see a range of features including biggest wins, biggest multipliers, and all of your own personal bets made in

each round.

Statistics- You can access the statistics feature at any point during play to see the results of up to the last 60 rounds played.

You can check the results of every round with the generated hash

Spaceman

Spaceman Crash game from Pragmatic Play took off in 2024

Taking provably fair casino beyond the stars, Spaceman landed in 2024 from Pragmatic Play and innovated on what Aviator had begun. Spaceman features a new presentation style that matches the visual flare Pragmatic Play brings to the slot game and includes brand new mechanics such as Autobets and the 50% cashout feature.

Autobet allows for a fully customisable cashout value that activates automatically when the round value reaches the set number from 1.01x-4,999x that can be modified at any time on any round. The 50% cashout feature takes what Aviator did with the Double Bets and allows the player to split their current bet into 2 separate bets. Press the 50% cashout feature to immediately be awarded 50% of your total bet at the current round multiplier with the other 50% still in play until you cash out or the Spaceman flies away.

How to Play Spaceman

Choose your bet level and press confirm in the betting window Once the betting phase ends, the Spaceman will blast off and start collecting a growing multiplier Cash out at any point to claim your winnings or wait longer for the chance to add a larger multiplier If the Spaceman crashes, the round ends and any bets not cashed out will be lost You can set an autobet to cash out automatically when the multiplier reaches a certain number The 50% cashout feature can also be activated which will instantly award 50% of the current winnings with the other 50% still in play Autobets can be set to trigger for the total bet value or for the 50% cashout feature
