Gameplay/Tutorial To play live roulette by Ezugi, you have to wait for the game to start and then place your bets sign to be active. The table is laid out in front of you and the interface displayed on the game screen. You can only use the game interface to place a bet before beginning the game. Before the croupier rolls the ball in the roulette wheel, you have to select your bet from the chip sizes displayed at the bottom of the display. You can set different bets depending on your preferences. There are special bets which will give you additional outcomes to the game round. After the bets have been placed, then the croupier will roll the ball on the roulette wheel. There are different coloured pockets with numbers where the ball can possibly land in. Your main objective is to predict where the ball will land. Whenever the ball lands on your predicted number or range of numbers, all winnings are paid out immediately and the game round starts all over again.

Environment Whenever you load Live roulette by Ezugi, you will find an attractive dealer who will guide you through the game. The dealer and the player interface will alert you whenever you need to place a bet. The croupier will also tell you when the betting period is over before spinning the ball in the roulette wheel. The dealer and the gameboard are located at a live casino as you can view the casino floor and patrons pacing around. The whole set makes a player feel as though they are in a brick and mortar casino. The environment is serene for players as you anticipate the numbered pockets where the ball will land on.

Video description Ezugi

has always ensured that players have the best gaming experience and this is demonstrated by Live Roulette. Whenever you load this game, you will discover that the video rendered is of the highest quality. Ezugi has also ensured that players can follow the gameplay by incorporating multiple cameras and angles so that you can see any action taken by the croupier. The first camera angle will focus on the table, croupier and the casino floor while other camera angles will focus on the table layout, and a roulette wheel. The camera will also highlight the winning number thus ensuring that players can have an unparalleled gaming experience. Unfortunately, there are no slow-motion replays in this game, but you can still view the game history by clicking the settings button.
